

Project Initialization and Planning Phase

Date	8 July 2026
Team ID	xxxxxx
Project Name	Smart Lender - Loan Eligibility Prediction System
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A bank credit officer handling daily loan applications.	Speed up the evaluation process for low-risk, qualified applicants.	I have to manually review every single financial and background document line-by-line.	Our current system lacks automated predictive screening to instantly flag high-confidence approvals.	Inefficient, bogged down by paperwork, and unable to focus on complex cases.
