Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS "I spend way too much time reviewing basic documents for clients who obviously qualify."	THINKS "There must be a faster way to filter out the obviously safe applications."
DOES Manually cross-references applicant income, credit history, and property areas line-by-line.	FEELS Inefficient and bogged down by repetitive paperwork.
